

LEAK SENSORS

Reliable leak monitoring – automated & certified

DETECT EXTREMELY SMALL LEAKS

Simply set up.
Everything else
runs automatically.

Detects even the
smallest leaks

PTFE-Housing
Chemically resistant
IP67

EARLY DETECTION THAT PROTECTS

Detects leaks before they become costly

MAXIMUM SAFETY

- Early leak detection
- Certified according to SIL2, WHG & Ex

INTELLIGENT SELF-MONITORING

TiltGuard technology
Warns in case of:

- Lifting
- Tilt
- Cable break

ROBUST & DURABLE

- PTFE-Housing
- Maintenance- and wear-free
- IP67

PLACE & GO

Set up, connect – ready to use
No calibration required

Leak Sensor

Article number: KA1715

Article number: KA1672

RECHNER SENSORS

TYPICAL APPLICATIONS

Leak monitoring in

Drip trays

Chemical & process plants

Storage and dosing systems

Water-hazardous liquids

Building automation

Our leak sensors with **TiltGuard technology** and **WHG approval** are specifically designed to detect escaping liquids early and reliably — even in very small quantities.

For maximum protection of the environment, equipment, and processes

Minimizes damage through early detection
